

M-14

Road and Bridge Repairs

Ann Arbor

Spring and Summer 2016

What Is Being Done?

Starting early spring 2016, lasting until the end of summer, road and bridge repairs will take place along M-14 between I-94 and the US-23/M-14 interchange in Ann Arbor.

Road repair work will include concrete pavement patching and joint repair work between I-94 and the Huron River, and resurfacing between the Huron River and the US-23/M-14 interchange.

Bridge repair work will take place at the following locations:

- Miller Road over M-14,
- M-14 over Maple Road,
- Newport Road over M-14,
- M-14 over Beechwood Drive, and
- M-14 over the Huron River, the railroad tracks and Bandemer Park.

Construction at the Miller Road, Maple Road and Newport Road bridges is expected to occur outside of the school year.

How Will Traffic Be Affected?

Construction will take place in stages to minimize the impacts on motorists and residents.

One lane will be open in each direction on M-14 between I-94 and Miller Road for local traffic.

- The Miller Road/Maple Road interchange will remain open during construction.

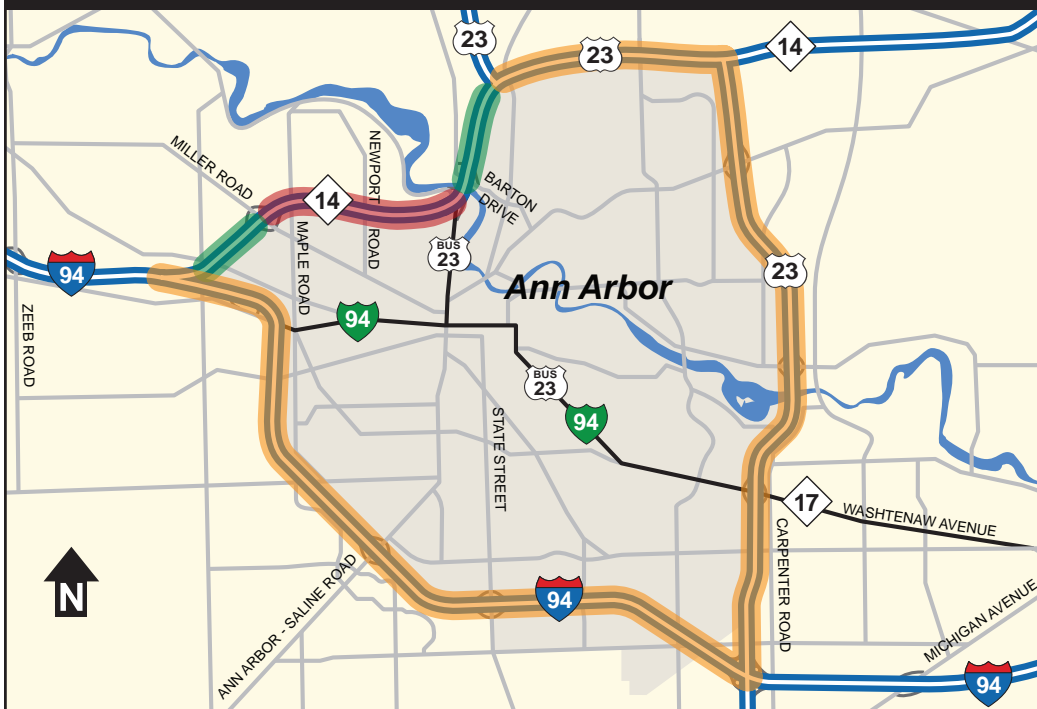

M-14 will be closed between Miller Road and US-23 Business Route (BR) (Main Street).

- The posted detour will include US-23 and I-94.
- M-14 access to Main Street will be maintained at all times.

One lane will be open in each direction on M-14 between US-23 BR (Main Street) and the US-23/M-14 interchange.

- Traffic will use median crossovers.
- The eastbound M-14 on and off ramps at Barton Drive will remain open during construction, except for short periods of time when they will need to be closed.
- The westbound M-14 ramp to Barton Drive will remain open during construction; the Barton Drive ramp to westbound M-14 will be closed.
